

ACCA 4 GERMICIDA INODORE

CATION DISINFECTANT AND DETERGENT WITH HIGH GERMICIDAL POWER FOR EXTERNAL USE

Disinfectant suitable for the food sector

Registration of the Italian Ministry of Health number 2486

Without perfume or colourants

APPLICATIONS

High germicidal cationic detergent disinfectant for external use. Ideal for the disinfection of houses, meeting places, street cleaning, food industries (slaughterhouses, dairies, canning industries), it lends itself to a radical disinfection of fixed and mobile equipment, systems and surfaces in contact with food substances.

FEATURES

100 g of product contain: dimethyl-benzyl-alkyl-ammonium chloride 1.5 g, co-formulants and water q.s.

INSTRUCTIONS FOR USE

In a 10% solution it disinfects all types of surfaces. Proceed by spraying on walls, floors, doors, in the rooms, or manually with clean cloths soaked in disinfectant. It is recommended to let it dry spontaneously. Does not stain or damage rubber or plastic.

Keep the container tightly closed. Do not swallow. Do not mix with other anion-based detergents or surfactants. Any use of sprayers must be carried out with the necessary precautions. Do not contaminate food, drinks or containers intended to contain them with the product. After disinfection carry out a thorough rinsing with drinking water in order to facilitate the elimination of disinfectant residues. The use of uses other than those indicated in the food sector is prohibited.
