

TECNET FRESH TOKIO

2-IN-1 DETERGENT AND DEODORIZER

Two functions in one product

Surface cleaner and air freshener

Biphase technology: shake before use

APPLICATIONS

Biphase product, ideal for use as:

A concentrated deodorizer for rooms and fabrics (hotel rooms, lounges, bathrooms, curtains, carpets, etc.).

A surface cleaner (floors, tiles, linoleum, doors, sanitary fixtures, bins, kitchens, etc.) and fabric cleaner

FEATURES

Innovative product with Biphase technology, effectively neutralizing unpleasant odors while providing a long-lasting fragrance.

Its 2-in-1 action ensures excellent cleaning and deodorizing performance, offering both cost and storage efficiency.

As an air and fabric freshener: Ideal for both environments and fabrics, ensuring a deodorizing effect without affecting colors. It releases a fresh fern fragrance in the air and on applied surfaces.

As a surface cleaner: Suitable for all washable surfaces, featuring quick-drying properties and no-rinse application. It does not produce foam, making it perfect for scrubber-dryers and single-disc machines.

INSTRUCTIONS FOR USE

Biphase product – always shake before use.

As a freshener:

Spray in room corners, on surfaces, or directly on fabrics (curtains, sofas, carpets, etc.).

For a 20m² area, apply 2-3 sprays.

Test on a hidden area before use to check fabric resistance. Do not apply on leather or delicate fabrics.

As a multi-purpose/surface cleaner:

Dilute in water from 1% to 3%.

For daily maintenance and light dirt, dilute at 1%.

For enhanced cleaning and fragrance, dilute at 2-3%.

Avoid using multiple fragrances simultaneously to prevent olfactory desensitization.

We recommend for use, packaging etc. to follow instruction on label and/or on safety data sheet. This technical data sheet nullifies and replaces any precedent edition.
