

SOLARIS BIANCO MUSK

ULTRA SCENTED LAUNDRY SOFTENER

Intense musk scent that persists also after drying

Neutralizes detergent residual alkalinity

Eases the passage of fabric in the mangle

APPLICATIONS

Softener which gives fabrics smoothness and makes them antistatic. It is used in the final rinse.

It allows to neutralize possible alkaline residues of detergents.

FEATURES

It facilitates a littler water presence in the fabric after the final centrifuge. This allows to save time and energy for the following drying process.

Thanks to its lubricant properties, it reduces formation and fluff separation in the rotative dryer machines and it increases the material fluidity during ironing.

Its particular destaticizing property operates a reduction of the electrostatic charge of the fibers facilitating folding operations and avoiding rolling-ups on the mangle.

Low viscosity allows its use even in automatic dosing systems or peristaltic pumps.

The intense musk scent persists on the fibers after drying.

INSTRUCTIONS FOR USE

It is recommended to use the product as follows:

2-10 g for each kg of dry laundry

PACKAGING:	Standard packages		N° pieces for carton	N° cartons / packages for pallet	N° pieces for pallet
	Tank	Kg 5	3	48	144

CHEMICAL-PHYSICAL INFORMATIONS:	Parameters	U.M.	Values	Method of analysis
	Aspect:	-	Liquid	Visual
	Colour:	-	Light green	Visual
	Perfume:	-	Musk	Olfactory
	pH :	-	2,0 ± 0,5	Instrumental
Density:	Kg/dm ³	1,01 ± 0,05	By weighing	

HAZARD: Reg. (CE) 1272/2008	-	H412: toxic to aquatic life with long lasting effects

We recommend for use, packaging etc. to follow instruction on label and/or on safety data sheet. This technical data sheet nullifies and replaces any precedent edition.
