

CEMENTEX

ACID DESCALER FOR CEMENT AND LIME

Removes the most resistant encrustations from stoneware, klinker and terracotta floors

Eliminates the white efflorescence of new floors

Ideal for mixers and construction equipment

APPLICATIONS

Acid descaler that can be used to remove encrustations of cement, cement and lime, and as an opener before subsequent treatments. Ideal for applications on industrial floors, terracotta or tiles.

FEATURES

Hydrochloric acid-based product, ideal for removing cement, concrete and lime from cement mixers, concrete mixers, shovels, machinery and construction equipment. Also great for brick and ceramic tiles. In addition to the most resistant encrustations, it also removes the unsightly veil of cement present on new surfaces.

INSTRUCTIONS FOR USE

As descaler:

Use diluted with water with a 15-35% solution. Rinse with water jet.

If the treatment is done carefully, no outcrops of mineral salts should appear on the surface. If not, repeat the process.

As opener:

Use diluted with water with a 10-15% solution. Apply on the floor to be treated and leave for 10-15 minutes. Scrub, if necessary, with a scrub brush. Finally, rinse thoroughly with water.
