

TECNET BIANCO PLUS

HIGHLY CONCENTRATED SANITIZING DETERGENT

Perfect for sanitizing hard surfaces and fabrics

Removes protein dirt, viruses, bacteria, fungi and yeasts

Active at 12% at the time of packaging

APPLICATIONS

Product capable of cleaning, removing stains, deodorizing and removing viruses, bacteria, fungi and yeasts from hard surfaces, equipment, outdoor spaces of civil sectors (communities, health facilities, schools, airports, railway stations etc.) where the use of chlorine-based products is recommended or indicated.

In the laundry sector it can be used as a bleach and for the removal of colored stains, such as wine, blood, coffee and tea.

FEATURES

Stabilised sodium hypochlorite detergent suitable for hard to textile surfaces.

When used in washing cycles, it ensures the hygiene and removal of colored stains and protein residues. Can be used in washing of white fabrics and resistant colours. Do not use on clothes soiled with chlorhexidine disinfectants.

Product designed to be dosed automatically in laundries, normally during pre-washing at a maximum temperature of 40°C. Any residual hypochlorite can be neutralized by adding an oxygen-based bleach.

Thanks to the special stabilized formulation, the oxidizing effect is guaranteed even during the summer periods.

INSTRUCTIONS FOR USE

For surfaces: to obtain a solution with sodium hypochlorite concentration higher than 0.1%, insert 10-30 grams of product per liter of water. In 10 liters of water, add 100-300 grams of product. Maintain contact time of at least 1 minute.

In the laundry: dose 4-15 g of product per kg of dry linen. Due to the unstable nature of SODIUM HYPOCHLORITE, in warmer periods double the dosage.

PACKAGING:	Standard packages		N° pieces for carton	N° cartons / packages for pallet	N° pieces for pallet
	Tank	Kg 5	3	48	144

CHEMICAL-PHYSICAL INFORMATION:	Parameters	U.M.	Values	Method of analysis
	Aspect:	-	Liquid	Visual
	Colour:	-	Yellow	Visual
	Perfume:	-	No Perfume	-
	pH (Sol. 1%) :	-	11,9 ± 0,5	Instrumental
Density:		Kg/dm ³	1,19 ± 0,05	By weighing

HAZARD: Reg. (CE) 1272/2008		H290 May be corrosive to metals. H314 Causes severe skin burns and eye damage. H400 Very toxic to aquatic life. H411 Toxic to aquatic life with long lasting effects. EUH031 Contact with acids liberates toxic gas.
	DANGER	

We recommend for use, packaging etc. to follow instruction on label and/or on safety data sheet. This technical data sheet nullifies and replaces any precedent edition.
