GEA BRILL

DISHWASHER RINSE-AID

Additive with drying and brightening action

Removes scale deposits and detergent residues

Suitable for all types of water

APPLICATIONS

Rinse aid additive for dishwashing machines used in the rinsing phase.
Indicated in the presence of halos and glazes on dishes and glasses.
Suitable for HCCP plans.

FEATURES

Used during the rinse phase at a temperature of at least 80 ° C, it facilitates drying of the dishes, making them clear and shiny, without generating excess foam.
Essential in the presence of medium-hard water, it guarantees the removal of limestone residues and detergent from the dishes.
The product can be added manually or with the appropriate automatic dispensers.
Ecolabel is the European Union's eco-label (EU Ecolabel). It distinguishes the products which, while guaranteeing high performance standards, are characterized by a reduced environmental impact during the entire life cycle. EU Ecolabel is a voluntary ecological label based on a system of selective criteria, defined on a scientific basis, which takes into account the environmental impacts of products throughout the entire life cycle and is subject to certification by an independent body (competent body).
