

TECNET VIRDIS OIL

HEAVY DUTY HAND CLEANER

Hand soap without abrasives
 Specific for removing synthetic oils
 Not aggressive on the skin

APPLICATIONS

High active handwash specifically for the removal of synthetic oil, grease, paints and inks; finds natural use in mechanical factories, metallurgical companies and workshops.

FEATURES

Product without abrasive micro-granules, practical to use and easy to dispense with normal overflow dispensers.

Compared to handwash pastes it allows to eliminate greasiness without clogging the drains.

Thanks to the presence of emollients and the high content of amphoteric surfactants, it is gentle on skin and active on synthetic and mineral oils.

INSTRUCTIONS FOR USE

Use pure. It is advisable to apply it with appropriate dispensers that prevent hygiene problems, such as the promiscuous handling of the abrasive paste.
