

TECNET DELY NEUTRAL

LAUNDRY NEUTRALIZER

- Prevents fabric hardening
- Prevents limestone deposit
- Prevents yellowish spots formation during ironing

APPLICATIONS Neutralizer for laundries specific to buffer the washing bath during the rinsing phase. Also suitable for removing oil and sunscreen stains.

FEATURES Acid formulation to be used in the rinsing phase, it allows to reduce the pH of the washing bath by buffering the residues of the alkalizers. It prevents the deposition of inorganic substances between the fibers, favoring ironing with mangle. Product designed to be automatically dosed in laundries: it can be used in combination with alkalizing agents added with sequestering and oxidizing agents, the washing cycle can be concluded with a scented softener.

INSTRUCTIONS FOR USE It is recommended to use the product in the following doses:

dose 2.5-5 g of product per kg of laundry depending on the amount of alkalizing used and the hardness of the water.

To verify the effectiveness of the product, check that the solution discharged does not turn pink in the phenolphthalein assay or that the pH value is between 5 and 6
