

# SOLARIS PARSIDRIM

## HYPERSCENTED LAUNDRY SOFTENER

Floral intense scent. Persist also after drying

Neutralizes detergent residual alkalinity

Improves linen scrolling on ironing machine

### APPLICATIONS

Quality softener that makes the fabrics soft and without static electricity, used in the last rinse stage.

Allows to neutralize any alkaline residues of detergents.

### FEATURES

It favors a lower water retention in the tissues after final discharge or centrifugation and this allows energy and time savings during subsequent drying.

Due to its lubricating properties, it reduces the formation and the detachment of the hair in the rotary dryers and increases the fluidity of the material during the ironing.

Its particular de-staticising properties reduce the electrostatic charge on the fibers, favoring the folding operations and avoiding roll-ups to the mangle.

The low viscosity of the product allows its use also in automatic dispensers or peristaltic pumps.

The intense flowery perfume persists on the fibers after drying

### INSTRUCTIONS FOR USE

We recommend using the product as follows:

2 - 10 g for every kg of dry laundry

PACKAGING:	Standard packages	N° pieces for carton	N° cartons / packages for pallet	N° pieces for pallet
	Tank Kg 5	3	48	144
	Tank Kg 20	-	-	36

CHEMICAL-PHYSICAL INFORMATIONS:	Parameters	U.M.	Values	Method of analysis
	Aspect:	-	Liquid	Visual
	Colour:	-	Light Blue	Visual
	Perfume:	-	Flowery	Olfactory
	pH:	-	2,0 ± 0,5	Instrumental
	Density:	Kg/dm <sup>3</sup>	1,0 ± 0,05	By weighing

<b>HAZARD:</b> Reg. (CE) 1272/2008	-	-
	-	-

We recommend for use, packaging etc. to follow instruction on label and/or on safety data sheet. This technical data sheet nullifies and replaces any precedent edition.
