

POOL 100

SWIMMING POOL ALGAECIDE

Prevents cloudiness of the water

Usable for maintenance and as wintering agent

Limits the proliferation of algae

APPLICATIONS

Algae remover for swimming pools, prevents the formation of algae and the relative cloudiness of the water.

FEATURES

Product with bactericide, algaecide and fungicide active ingredient, it sanitizes the water by preventing the growth of algae in the tank. Dosed at the recommended concentrations, it is not dangerous for newborns and does not generate foam. Formulation suitable for use as a winterizer, it prevents the formation of incrustations and stains on walls and accessories.

INSTRUCTION FOR USE

It is recommended to use the product as follows:

Shock treatment:

dose 150-250 g/m³ of water – can be combined with liquid or powder chlorine releasers.

Maintenance:

dose 50-100 g/m³ of water per week - can be combined with liquid, powder or tablet chlorine removers.

Wintering:

dose 150-250 g/m³ of water taking care to repeat the operation mid-season - it can be combined with liquid (75 g/m³) or powdered (15 g/m³) chlorine dispensers.

The recommended doses are indicative as they depend on the hardness of the water and climatic conditions.
