

# POOL 4F

## SWIMMING POOL MULTIACTIVE TABLETS

Tablets with 91% active chlorine

Sanitizing, stabilizing, flocculant and anti-limescale

Based on trichloroisocyanuric acid

### APPLICATIONS

Tablets with sanitizing, stabilizing, flocculant and anti-limescale action for pools with hard and heavily encrusted water.

### FEATURES

Product with active ingredient indicated by the Ministry of Health as a disinfectant for swimming pool water.

Multifunction tablets for continuous treatment of swimming pool water; recommended use after shock treatment.

In contact with water releases hypochlorous acid and isocyanuric acid which guarantees stabilization against the decomposition of chlorine caused by ultraviolet rays.

### INSTRUCTION FOR USE

Put 1 tablet every 20 m<sup>3</sup> of water every 5-7 days in the skimmer.

The recommended dosages are approximate and depend on water hardness, number of bathers and weather conditions.

Do not use the product if your pool has diatomaceous earth filters.

If using a dispenser, fill it and position the opening so that the product is released to maintain the levels of chlorine and pH within the recommended values.

The pH of the water should be between 7.2 and 7.6 and should be checked daily.

The chlorine value must be between 0.5 and 1.5 mg/l.
