

TECNET FLOS CLEVER

LAUNDRY CONCENTRATED ENZYMATIC DETERGENT

Indicated for medium and hard water

Effective on all kind of soil

Suitable for all kind of white and coloured fabrics

APPLICATIONS

Specific liquid detergent for hard water to be used in the prewash and in the main wash. Product not irritating to concentrations of use and, therefore, usable also for soaking laundry.

FEATURES

Complete product of wetting agents, enzymes and sequestering agents, it performs an effective cleaning action on the tissues even in the presence of hard water. The product is designed to be dosed automatically in laundries: it can be used in combination with alkalizing agents with added sequestering agents, oxidizing agents and chlorinated bleaches; the washing cycle can be concluded with a neutralizing softener.
