## SOLAR PANELS CLEANER

Dissolves scale and organic soil  
 Prevents limestone residues formation  
 Helps maximizing energy production

### APPLICATIONS

Specific cleaner for solar panels.  
 Effective against scale and organic soil, it helps maximizing the production of energy.

### FEATURES

The formula of this product, based on organic acids and surfactants, allows to dissolve limescale, dust, pollen, bird excrement and musk.  
 It creates a film that can ease the gush of water, preventing the formation of limescale residual drops and improving the resistance to dirt.  
 The product is not corrosive so that it does not ruin surfaces.  
 It does not contain substances that are dangerous for the environment. Moreover, the surfactants are biodegradable according to Reg. CE 648/04.

### INSTRUCTIONS FOR USE

Dilute the product in a 5% solution and apply it to the surfaces using a spray or a pump for misting water.  
 After a maximum of 2 min, rinse with distilled or demineralized water.  
 In case of persistent dirt, use a brush with soft bristles for cleaning.
