TIRES POLISH

Penetrates in tires micro porosity
 Keeps tire elasticity
 Polishes and renews tires and rubbers component

APPLICATIONS Ready-to-use polishing and renewing for tires and rubber parts.

FEATURES It maintains the original elasticity of the rubber, leaving a glossy and homogeneous finish. Specific product for tires, also suitable for door gaskets, mats and any other rubber parts. Formulated to penetrate into the micro-pores of the rubber preventing the cracks caused by aging. Silicone-based product, does not affect paints and plastics.

INSTRUCTIONS FOR USE We recommend using the product as indicated below:

- clean and dry the part to be treated
- spray the product and even out with a sponge
- leave to dry
- if the tires are particularly damaged, repeat the operation

In case of slight opacity dilute the product 1: 1 in water and repeat the above operations.

Do not apply the product on the tread.
