

SOLARIS STOVIL SOLID

DISHWASHER SOLID DETERGENT - ALL TYPES OF WATER

Removes dirt and organic residues from dishes, glasses and tableware

Superconcentrated formula

Suitable for all water hardness

APPLICATIONS

Complete solid detergent for professional dishwashers; it is formulated to degrease and remove starch, vegetal and protein residues from pots and dishes.

This product is suitable for every type of water, it assures a great cleaning power and, at the same time, a reasonable price.

FEATURES

Complete product with sequestering and suspending agents; it has as base a vegetal matrix, it reduces the coefficient of friction and improves the cleaning operations in every kind of water.

It reduces drastically the places devoted to storage and the packaging consume; furthermore it has a low concentration and improve the quality/price ratio.

It prevents pollution on the workplace avoiding spills, it limits problems related to handling loads, it reduces the risk of contact and possible accidents for operators.

Soluble in cold water and not hygroscopic, it does not present the tiresome problems concerning the density and concerning the control of the temperature of the dissolving water.

To make dishes and glasses more shining it is possible to use the product with a specific rinse aid according to water hardness.

INSTRUCTIONS FOR USE

The product is dosed with the appropriate dissolvers that ensure constancy in dosing:

QUANTITIES

°F water hardness	SOFT 0 -15	MEDIUM 15-25	HARD > 25
Quantity for litre of water	0,4 – 0,8 g	0,8 - 1,4 g	>1,4 g

	Standard packages	N° pieces for carton	N° cartons / packages for pallet	N° pieces for pallet
PACKAGING:	Capsule kg 4	4	40	160

CHEMICAL-PHYSICAL INFORMATIONS:	Parameters	U.M.	Values	Method of analysis
	Aspect:	-	Solid	Visual
	Colour:	-	White	Visual
	Perfume:	-	No perfume	-
	pH (1g/l):	-	12,6 ± 0,5	Instrumental
	Alcalinity:	% Na ₂ O	> 19	Titration
