

TECNET BLUEBRIL

DISHWASHER RINSE AID

Additive with drying and brightening action

Removes scale deposits and detergent residues

Makes glasses and tableware look brighter

APPLICATIONS

Additive sparkling aid for dishwasher, used in the rinsing phase.
It is indicated for the elimination of rims from plates and glasses.

FEATURES

Used in the rinse phase to a temperature of at least 80 ° C facilitates the drying of crockery making terse and shiny, without generating excessive foam.
Indispensable in the presence of medium-hard water, guarantees the removal of limescale deposits and detergent from the dishes.
The product can be added manually or with the proper automatic dispenser.

INSTRUCTIONS FOR USE
