## HIGHLY CONCENTRATED DETERGENT FOR GLASSES

Removes finger-marks and fat residues

Cleans and dries quickly without streaks

Contains glycols

**APPLICATIONS** High concentration detergent, designed for cleaning all washable surfaces, glass and mirrors,

jambs and doors, objects and surfaces in crystal, metal, porcelain, marble and synthetic material.

Product based on slow evaporation solvents, it allows cleaning and polishing all water-resistant **FEATURES** 

surfaces.

Specific formulation for cleaning glass and crystals, without rinsing, does not leave streaks; thanks to the high concentration of detergent actives, it allows to speed up cleaning operations reducing

the need for mechanical action.

Product, if properly diluted, usable for cleaning floors.

### **INSTRUCTIONS FOR USE**

#### To prepare a detergent ready for daily use:

dilute in water in a ratio of 1:4; spray this pure solution on the surface to be treated and remove with a sponge.

#### To prepare a ready-to-use concentrated detergent:

dilute in water in a ratio of 1:5; spray this pure solution on the surface to be treated and remove with a sponge.

Manual use: dilute 8-10 g per liter of water

Use with washer-dryer machines: dilute 10-15 g per liter of water

## To use the product as such, we recommend the following dosages:

fill 1/3 of the product tray and dilute it in 15 litres of water For light dirt: For medium dirt: fill 1/2 of the product tray and dilute it in 15 litres of water For heavy dirt: fill the entire product tray and dilute it in 15 litres of water
